Oleic acid 16 %

saturated fatty acids added 9 %

Antioxidants among others

Vitamin E

DURABILITY

24 month. See best before date

STORAGE

Store in a dark, cool and well sealed.

Flaxseed oil

Energy supplement with the proper allocation of Omega 3 and 6

Genuine cold-pressed flaxseed oil with high content of long-lasting energy and good balance between Omega 3 and 6. Flaxseed oil has a positive effect on the joints, heart / vascular, skin and have good dietary effects. Addition of the antioxidant Vitamin E reduces the risk of rancidity, which otherwise easily occurs with fatty acids.

Oil is a good energy supplement with healthy fats and does not create the negative effects of carbohydrates in terms of the rapid insulin increases, obesity and blood sugar.

Flaxseed oil has unlike other feeding oils higher content of Omega-3 than omega-6 (4:1). High intake of Omega-6 reduces the capacity to assimilate those of vascular and heart essential Omega-3 fatty acids.

Other animal oils have the opposite ratio between Omega-3 and Omega-6. Soybean oil has 1:7, rapeseed oil 1:2 and sunflower oil 1:200.

Usage

Daily supplements of flaxseed oil contributes to good digestive function. Make coat shiny and easy to care for and have positive effects on the heart and blood vessels.
