Paraffin oil
camphor
Cajuput oil
Menthol
Eucalyptus oil
Cinnamon Oil
Peppermint Oil
Clove oil

DURABILITY

24 month. See best before date.

For external use only.

Warming ointment

Beneficial warmth for muscles & tendons

RADITAL warming ointment with a balanced blend of essential oils. Highly appreciated for its long lasting heat that is soothing on sore muscles and tendons. Has the same basic formulation as RADITAL Liniment, but in a convenient ointment with a faint lovely scent of cinnamon and cloves.

Liniment ointment has been used for 1000s of years to relieve occasional soreness in muscles, tendons and joints. RADITAL warming ointment is widely used in elite sports, exercise, by masseurs and physiotherapists and by elderly care.

For animals, it is often used to treat localized pain or wind galls on the horse's or dog's leg, thigh or back. Has very good effect on temporary swellings and wind galls.

Usage

Rub lightly over the painful area. Should only be applied to intact skin. Be careful when bandaging.
