24 month. See best before date.

STORAGE

cool

Horse Ointment

For care of minor wounds

RADICIN Horse ointment is a mild antiseptic ointment for the treatment of minor wounds. Prevents cracking and calluses. Contains vitamins A and D, which stimulate growth and help to heal skin lesions and mucous membranes.

RADICIN Horse ointment is a more modern alternative to tar ointment and is very popular. Used by many horse owners for skin care and to prevent calluses in the mouth caused by the bit.

Usage

Rub the ointment in exposed areas 1-2 times daily.
